Getting to know your body.

🌱 Welcome

This isn't about fixing anything.
We're just noticing where you are.

Answer what fits. Skip what doesn't.

🧠 1. Right Now,

How are you arriving today?
(Choose what feels closest.)

- ☐ Curious but unsure
- ☐ Hopeful, but tired of trying
- ☐ Frustrated with my body
- ☐ Ready to listen differently
- ☐ Just exploring

In one sentence, what made you join *FromWithin*?

(write answer here, continue for all questions)

⚡ 2. Energy & Capacity

Think about most days—not your best or worst.

- My daily energy feels:
    - ☐ Steady
    - ☐ Up and down
    - ☐ Mostly low
    - ☐ Hard to predict
- I usually feel most energized:
    - ☐ Morning
    - ☐ Midday
    - ☐ Evening
    - ☐ Rarely

What drains you the fastest right now?

😴 3. Sleep & Recovery

Sleep tells us a lot.

- ☐ I fall asleep easily
- ☐ I stay asleep
- ☐ I wake feeling rested
- ☐ My mind races at night
- ☐ Sleep feels inconsistent

If sleep could improve one way, what would matter most?

🍽 4. Eating Experience (Not Rules)

No good food. No bad food. Just feedback.

- After most meals, I feel:
    - ☐ Satisfied
    - ☐ Still hungry
    - ☐ Too full
    - ☐ Tired or foggy
    - ☐ Energized
- My appetite feels:
    - ☐ Clear
    - ☐ Blunted
    - ☐ Constant
    - ☐ Unpredictable

What's your relationship with food been like lately?

🏋️ 5. Movement & Training

Movement should *support* you.

- Right now, movement feels:
    - ☐ Energizing
    - ☐ Neutral
    - ☐ Draining
    - ☐ Inconsistent
    - ☐ Stressful
- I usually move because:
    - ☐ I enjoy it
    - ☐ I feel like I should
    - ☐ I'm trying to fix something
    - ☐ It helps me cope
    - ☐ I'm rebuilding trust

What kind of movement feels safest for your body right now?

🧭 6. Stress & Life Load

Stress isn't just mental—it's biological.

- My current life load feels:
    - ☐ Manageable
    - ☐ Heavy but stable
    - ☐ Overwhelming
    - ☐ Constantly changing

What's one thing your body has been asking for lately?

🔍 7. Body Feedback You've Noticed

Check any that show up often.

- ☐ Energy crashes
- ☐ Sleep disruptions
- ☐ Digestive discomfort
- ☐ Cravings or loss of appetite
- ☐ Mood swings or irritability
- ☐ Training feels harder than it should
- ☐ Recovery feels slow

Which one do you want to understand better?

🧬 8. Your Intention (No Pressure)

This community isn't about forcing change.
It's about building cooperation.

What would *feeling better* look like for you—beyond the scale?

🧘 Closing

Thank you for meeting your body where it is.

Nothing here means something is "wrong."
It just gives us a place to start listening.

You're in the right place.
We'll take this **from within**—together.
